Volume 21 (1986)

Pages 1–788

PUBLISHED FOR

THE INSTITUTE OF FOOD SCIENCE
AND TECHNOLOGY (U.K.)

BY

BLACKWELL SCIENTIFIC PUBLICATIONS
OXFORD LONDON EDINBURGH BOSTON MELBOURNE
1986

Printing by Adlard & Son Ltd, Dorking, Surrey

Volume 21, Number 1, February 1986

R. G. Bell and K. M. de Lacy
Factors influencing the determination of nisin in meat products 1

J. R. Wagner and M. C. Añón
Effect of frozen storage on protein denaturation in bovine muscle 1. Myofibrillar ATPase activity and differential scanning calorimetric studies 9

P. Ravestein and R. A. Driedonks
Quantitative immunoassay for soya protein in raw and sterilized meat products 19

D. J. B. da Ponte, J. P. Roozen and W. Pilnik
Effects of additions, irradiation and heating on the activity of Trimethylamine oxide-ase in frozen stored minced fillets of whiting 33

G. M. Hall and D. A. Ledward
Silage from tropical fish 3. Lipid behaviour 45

P. R. Sheard, A. Fellows, D. A. Ledward and J. R. Mitchell
Macromolecular changes associated with the heat treatment of soya isolate 55

J. A. Maga and O. O. Fapojuwo
Extrusion of corn grits containing various levels of hydrocolloids 61

T. R. Gormley and P. E. Walshe
Shrinkage in canned mushrooms treated with xantham gum as a pre-blanched soak treatment 67

R. Aguerre, C. Suárez and P. E. Viollaz
Effect of drying on the quality of milled rice 75

A. I. Ihekoronye
Rapid *in vitro* enzymic predictive model for the *in vivo* digestibility of food proteins 81

M. H. Iskander and S. I. Shalabi
Studies on production of a ghee-like product from vegetable fats 89

S. Moschiar and J. P. Fardín
Sorption properties of raw hake muscle 95

Technical note

J. Chirife, C. Suárez and H. A. Iglesias
The calculation of the heat of water sorption in foods on the basis of B.E.T. theory 103

Book reviews 109

Volume 21, Number 2, April 1986

Susan E. Parsons and R. L. S. Patterson
Assessment of the previous heat treatment given to meat products in the temperature range 40°–90°C. Part 1: Soluble nitrogen analysis 117

Susan E. Parsons and R. L. S. Patterson
Assessment of the previous heat treatment given to meat products in the temperature range 40°–90°C. Part 2: Differential scanning calorimetry, a preliminary study 123

L. C. Lin and T. Ito
Flow behaviour and scanning electron microscopy of myosin B, soya protein components and mixtures at varying temperatures 133

D. N. Rao and V. S. Murthy
Rapid dye reduction tests for the determination of microbiological quality of meat 151

A. A. Dawood, R. N. Roy and C. S. Williams
Effect of delayed icing on the storage life of rainbow trout 159

M. Bhattacharya and M. A. Hanna
Viscosity modelling of dough in extrusion 167

J. Chauhan and R. Harper
Descriptive profiling *versus* direct similarity assessments of soft drinks 175

M. B. Arihantana and K. A. Buckle
Effect of non-enzymic browning, starch and sugars on total cyanide determination in cassava by an enzymic assay 189

M. Riva and C. Peri
Kinetics of sun and air drying of different varieties of seedless grapes 199

Q. T. Pham
Simplified equation for predicting the freezing time of foodstuffs 209

M. Caurie
A general method for predicting the water activity of simple and multi-component mixtures of solutes and non-solutes 221

Technical notes

D. D. Muir and W. Banks
Multiple homogenization of cream liqueurs 229

G. S. Mudahar, J. S. Sidhu and K. S. Minhas
Effect of low pH preservation on the colour and consistency of tomato juice 233

Book reviews 239

Volume 21, Number 3, June 1986

G. O. Latunde-Dada and R. J. Neale
Availability of iron from foods 255

M. J. Morley
Derivation of physical properties of muscle tissue from adiabatic pressure-induced temperature measurements 269

M. C. López de Ogara, F. Bercovich, A. M. R. Pilosof and G. Bartholomai
Denaturation of soybean proteins related to functionality and performance in a meat system 279

C. A. Curran, R. G. Poulter, A. Brueton and N. S. D. Jones
Cold shock reactions in iced tropical fish 289

R. Bennett and M. Hamilton
Consumer acceptability of cod and whiting after chilled storage and freezing and thawing 311

R. R. Gaze, D. Atherton and S. D. Holdsworth
Suitability of the Ottawa Pea Tenderometer to assess the quality of raw peas 319

J. S. Sindhu and M. Tayal
Influence of stabilizers on the salt balance and pH of buffalo milk and its concentrate 331

A. Giannakopoulos and S. Guilbert
Determination of sorbic acid diffusivity in model food gels 339

R. L. McBride
Hedonic rating of food: single or side-by-side sample presentation? 355

J. Chen, G. A. Reineccius and T. P. Labuza
Prediction and measurement of volatile retention during extrusion processing 365

N. J. Heppell
Comparison between the measured and predicted sterilization performance of a laboratory-scale, direct heated UHT plant 385

Technical note

P. Varoquaux, F. Varoquaux and L. Tichit
Loss of nitrate from carrots during blanching 401

Book reviews 409

Volume 21, Number 4, August 1986

Editorial 417

Review

F. J. M. Smulders, P. Barendsen, J. G. van Logtestijn, D. A. A. Mossel and G. M. van der Marel
Lactic acid: considerations in favour of its acceptance as a meat decontaminant 419

D. Basker, I. Klinger, M. Lapidot and E. Eisenberg
Effect of chilled storage of radiation-pasteurized chicken carcasses on the eating quality of the resultant cooked meat 437

A. M. Balogun and S. O. Talabi
Studies on size distribution of skipjack tuna (*Katsuwonus pelamis*): effect on chemical composition and implications for its utilization 443

A. A. Williams, C. R. Baines and M. S. Finnie
Optimization of colour in commercial port blends 451

K. E. Peers and D. T. Coxon
Simple enrichment procedure for the estimation of minor polyunsaturated fatty acids in food fats 463

C. A. Curran, G. R. Ames and N. S. D. Jones
Frozen storage life of the Bolivian fish, sabalo (*Prochilodus platensis*) 471

A. Giannakopoulos and S. Guilbert
Sorbic acid diffusivity in relation to the composition of high and intermediate moisture model gels and foods 477

O. Paredes-López, R. Montes-Ribera, J. González-Castañeda and M. G. Arroyo-Figueroa
Comparison of selected food characteristics of three cultivars of bean *Phaseolus vulgaris* 487

Z. Duda, M. Mielnik and J. Kamiński
An attempt to elaborate the curing technology for broiler chicken gizzards 495

Technical notes

G. Mazza
Sorption isotherms and monolayer moisture content of raw peas, and peas dehydrated after pressure cooking 503

S. R. Parekh and A. Margaritis
Application of immobilized cells of *Kluyveromyces marxianus* for continuous hydrolysis to fructose in Jerusalem artichoke extracts 509

L. N. Gerschenson, S. M. Alzamora and J. Chirife
Kinetics of sorbic acid loss during storage of peaches preserved by combined factors 517

Book reviews 521

Volume 21, Number 5, October 1986

Editorial 533

Review

G. L. Pettipher
The direct epifluorescent filter technique 535

J. R. Wagner and M. C. Añón
Effect of frozen storage on protein denaturation in bovine muscle. II. Influence on solubility, viscosity and electrophoretic behaviour of myofibrillar proteins 547

M. T. Karim, F. M. Najib and M. S. Mohammad
Determination of chloride, nitrate and calcium ions in sugar with ion-selective electrodes 559

C. B. Pham and R. R. Del Rosario
Studies on the development of texturized vegetable products by the extrusion process. III. Effects of processing variables of thiamin retention 569

I. Lamberg and B. Hallström
Thermal properties of potatoes and a computer simulation model of a blanching process 577

A. H. Muhr, J. M. V. Blanshard and S. J. Sheard
Effects of polysaccharide stabilizers on the nucleation of ice 587

K. Brønnum-Hansen and J. M. Flink
Anthocyanin colorants from Elderberry (*Sambucus nigra* L.). IV. Further studies on production of liquid extracts, concentrates and freeze dried powders 605

H. Y. Gökalp
Residual NO_3^-, NO_2^-, carbonyl and TBA values of Turkish soudjouk manufactured by adding different starter cultures and using different ripening temperatures 615

P. R. Sheard, J. R. Mitchell and D. A. Ledward
Extrusion behaviour of different soya isolates and the effect of particle size 627

Technical note

S. Angel, S. Harpaz, P. Lindner and C. Navrot
Textural quality of cooked Malaysian fresh water prawns (*Macrobrachium rosenbergii*) as influenced by the moulting cycle 643

Book reviews 649

Volume 21, Number 6, December 1986

Editorial 661

Review

J. M. Jones
Application of science and technology to poultry meat processing 663

A. H. Muhr and J. M. V. Blanshard
Effect of polysaccharide stabilizers on the rate of growth of ice 683

I. O. Akinyele and A. Adesina
Infant food preparations from cowpea, coconut and soybean 711

P. Robb, D. R. Williams, H. M. Crews and D. J. McWeeny
Release of metals from soya products by the action of some gastric and intestinal enzymes 717

G. R. Skurray, D. A. Wooldridge and Minh Nguyen
Rice bran as a source of dietary fibre in bread 727

M. J. Hincks and D. W. Stanley
Multiple mechanisms of bean hardening 731

C. Kratchanov, K. Marev, N. Kirchev and A. Bratanoff
Improving pectin technology: extraction using pulsating hydrodynamic action 751

C. R. Holland and P. McComiskey
Mussel protein recovery—batch dissolved air flotation studies 763

R. L. McBride and D. A. Booth
Using classical psychophysics to determine ideal flavour intensity 775

Book reviews 781

Errata 787
